

**BLOOMSBURY ELEMENTARY SCHOOL**  
**Allergy Assessment for Parents of Children with Food Allergies**

Student Name: \_\_\_\_\_ Date of last allergic reaction: \_\_\_\_\_

Anaphylactic reaction to the exposure of: \_\_\_\_\_

Symptoms of last episode: \_\_\_\_\_

Treatment of last episode: \_\_\_\_\_

An anaphylactic reaction can occur from 2 minutes to 2 hours after exposure to the allergen. Our ultimate goal is for your child to understand the severity of this allergic reaction, avoid exposure, recognize the symptoms of a reaction and seek immediate care. In order to provide effective education it is important to identify how much information your child understands at this time about their allergy and treatment.

What is your child's understanding of this allergy? \_\_\_\_\_

\_\_\_\_\_

How does your child explain their food allergy to others? \_\_\_\_\_

\_\_\_\_\_

How is your child able to protect themselves from exposure to this allergen? \_\_\_\_\_

\_\_\_\_\_

What Medic Alert item, if any, does your child wear? \_\_\_\_\_ What is their understanding for wearing this item? \_\_\_\_\_

On alternate years, I have some small group educational sessions planned to help middle school students learn more age appropriate information regarding their allergy management, would you like your child to be a part of these? \_\_\_\_\_

\_\_\_\_\_

What would you like your child to learn about their allergy this school year? \_\_\_\_\_

\_\_\_\_\_
