Pre-K Influenza (Flu) Vaccination Notice

New Jersey law requires that every child six months through 59 months of age attending any licensed child-care center or preschool facility shall annually receive at least one dose of influenza vaccine between September 1st and December 31st of each year.

Children who have not received the flu vaccine by December 31 must be excluded from school for the duration of the influenza season (through March 31) or until they receive at least one dose of the influenza vaccine.

Please contact your child's physician as soon as possible for an appointment. If your child does not receive the state mandated vaccine prior to December 31 and provide documentation of the vaccine, he or she will not be permitted to return to school when we resume in January.

Sincerely,

Kathleen Scuderi, BSN, RN, NJ-CSN
Bloomsbury Elementary School Nurse
