Pre-K influenza (flu) Vaccination Notice

New Jersey law requires that every child six months through 59 months of age attending any licensed child-care center or preschool facility shall annually receive at least one dose of the influenza vaccine between September 1st and November 30th of each year.

Children who have not received the flu vaccine by **November 30th** must be excluded from school for the duration of the influenza season (through March 31st) or until they receive at least one dose of the influenza vaccine.

Please contact your child's physician as soon as possible for an appointment. If your child does not receive the state mandated vaccine prior to November 1st and provide documentation of the vaccine, he or she will not be permitted to attend school until after the conclusion of flu season in March.

Sincerely,

Katie Scuderi, RN, BSN, CSN-NJ
Bloomsbury School Nurse
